9. ARGENTINA: Rumored conflict between US War and State Departments—Ambassador Messersmith reports, in connection with General von der Becke's visit to the US, that high Argentine officials have received "improper and unfounded information" that a "strong divergence of opinion and actual conflict" in policy exists between the US War and State Departments. Messersmith believes that if such an opinion gains credence in the Argentine Government it will desiroy any US hope for "real performance and collaboration" from Argentina.

Soviet offer of trucks reported—Messersmith has been unable to obtain confirmation of a rumor that the USSR has offered to sell 10,000 trucks and 10,000 tractors to Argentina. He believes that, while all types of equipment probably are being offered, Argentine officials have no illusions as to Soviet ability to make early deliveries.
